Subject: Lot Release Protocol Updates

Hi (b)(4),

I have comments from Joe regarding the lot release protocol:

- For the (b)(4) test you should be reporting data from the beginning, middle, and end and the unit on the value for the specification should be ----(b)(4)----.
- You still do not indicate the number of rejected lots, even though you should have done the final visual inspection before sending the lot release to us.
- After these last changes, please send the originally signed protocols along with the requested number of samples to the Sample Custodian.
- Finally , please submit a blank protocol template, i.e. without actual data, to the file for the record.

Please fax a final version of the protocol incorporating these changes to Joe Quander via the fax number used previously. Please also send the paper final signed protocols to the Sample Custodian.

Please fax the protocol today and send me and Joe Quander an email when you send.

Thanks,

Crystal Allard, RAC
