**Subject:** GSK MenHiberix BLA Committee, STN125363  
Hi all -

Freyja has returned to DBPAP after a time at a NIH. Her speciality is serology and we want her on board this file to work on serology. So we are asking you to please add her formally as a committee member, job type, CMC, serology.

David D - is there anything you need to do to make sure she can physically access the file in the EDR? She is able to be added to any committees as we filled out the DCC-101. If you need to do anything special so the BLA shows up in her workload and she can access it please do.

Thanks very much everyone -

Jen
