

AUDIT STANDARDS COMPARISON TO THE FDA PREVENTIVE CONTROLS FOR FOOD FOR ANIMALS RULE

NOTE: This template does not include all provisions that may be relevant to determining compliance. Provisions may have been excluded because, among other reasons, they are currently subject to enforcement discretion (e.g. certain written assurances, applicability of part 507 to certain processed human food by-products). This template includes references to FDA’s Food Safety Systems Recognition program. Please note that, at this point in time, the FDA’s Food Safety Systems Recognition program is not available for animal food.

PART 507—CURRENT GOOD MANUFACTURING PRACTICE, HAZARD ANALYSIS, AND RISK-BASED PREVENTIVE CONTROLS FOR FOOD FOR ANIMALS (PCAF Rule)	Audit Standard Language	Analysis of Alignment of Audit Standard	Description of Gaps and Actions to Align	Additional Comments
Subpart A—General Provisions				
§507.4 Qualifications of individuals who manufacture, process, pack, or hold animal food. (a)(1) The management of an establishment must ensure that all individuals who manufacture, process, pack, or hold animal food subject to subparts B and F of this part are qualified to perform their assigned duties; and				
(2) The owner, operator, or agent in charge of a facility must ensure that all individuals who manufacture, process, pack, or hold animal food subject to subparts C, D, E, or F of this part are qualified to perform their assigned duties.				
(b) Each individual engaged in manufacturing, processing, packing, or holding animal food (including temporary and seasonal personnel) or in the supervision thereof must:				
(1) Be a qualified individual as that term is defined in §507.3, <i>i.e.</i> , have the education, training, or experience (or a combination thereof) necessary to manufacture, process, pack, or hold safe animal food as appropriate to the individual’s assigned duties;				
(2) Receive training in the principles of animal food hygiene and animal food safety, including the

NOTE: This template does not include all provisions that may be relevant to determining compliance. Provisions may have been excluded because, among other reasons, they are currently subject to enforcement discretion (e.g. certain written assurances, applicability of part 507 to certain processed human food by-products). This template includes references to FDA’s Food Safety Systems Recognition program. Please note that, at this point in time, the FDA’s Food Safety Systems Recognition program is not available for animal food.

PART 507—CURRENT GOOD MANUFACTURING PRACTICE, HAZARD ANALYSIS, AND RISK-BASED PREVENTIVE CONTROLS FOR FOOD FOR ANIMALS (PCAF Rule)	Audit Standard Language	Analysis of Alignment of Audit Standard	Description of Gaps and Actions to Align	Additional Comments
importance of employee health and personal hygiene, as appropriate to the animal food, the facility and the individual’s assigned duties.				
(c) Responsibility for ensuring compliance by individuals with the requirements of this part must be clearly assigned to supervisory personnel who have the education, training, or experience (or a combination thereof) necessary to supervise the production of safe animal food.				
(d) Records that document training required by paragraph (b)(2) of this section must be established and maintained and are subject to the recordkeeping requirements in subpart F of this part.				
§507.7 Requirements that apply to a qualified facility.				
(a) A qualified facility must submit the following attestations to FDA: (1) An attestation that the facility is a qualified facility as defined in §507.3. For the purpose of determining whether a facility satisfies the definition of qualified facility, the baseline year for calculating the adjustment for inflation is 2011				

AUDIT STANDARDS COMPARISON TO THE FDA PREVENTIVE CONTROLS FOR FOOD FOR ANIMALS RULE

NOTE: This template does not include all provisions that may be relevant to determining compliance. Provisions may have been excluded because, among other reasons, they are currently subject to enforcement discretion (e.g. certain written assurances, applicability of part 507 to certain processed human food by-products). This template includes references to FDA’s Food Safety Systems Recognition program. Please note that, at this point in time, the FDA’s Food Safety Systems Recognition program is not available for animal food.

PART 507—CURRENT GOOD MANUFACTURING PRACTICE, HAZARD ANALYSIS, AND RISK-BASED PREVENTIVE CONTROLS FOR FOOD FOR ANIMALS (PCAF Rule)	Audit Standard Language	Analysis of Alignment of Audit Standard	Description of Gaps and Actions to Align	Additional Comments
(2)(i) An attestation that you have identified the potential hazards associated with the animal food being produced, are implementing preventive controls to address the hazards, and are monitoring the performance of the preventive controls to ensure that such controls are effective; or (ii) An attestation that the facility is in compliance with State, local, county, tribal, or other applicable non-Federal food safety law, including relevant laws and regulations of foreign countries, including an attestation based on licenses, inspection reports, certificates, permits, credentials, certification by an appropriate agency (such as a State department of agriculture), or other evidence of oversight.				
(c)(1) A facility must determine and document its status as a qualified facility on an annual basis no later than July 1 of each calendar year.				
(3) When the status of a facility changes from “qualified facility” to “not a qualified facility” based on the annual determination required by paragraph (c)(1) of this section, the facility must notify FDA of that change in status using Form FDA 3942b by July 31 of

the applicable calendar year.				
(d) When the status of a facility changes from “qualified facility” to “not a qualified facility,” the facility must comply with subparts C and E of this part no later than December 31 of the applicable calendar year unless otherwise agreed to by FDA and the facility.				
(e) A qualified facility that does not submit attestations under paragraph (a)(2)(i) of this section must provide notification to consumers as to the name and complete business address of the facility where the animal food was manufactured or processed (including the street address or P.O. Box, city, state, and zip code for domestic facilities, and comparable full address information for foreign facilities) as follows: (1) If an animal food packaging label is required, the notification required by paragraph (e) of this section must appear prominently and conspicuously on the label of the animal food.

§507.17 Plant and grounds.				
(a) The grounds around an animal food plant under the control of the management of the establishment must be kept in a condition that will protect against the contamination of animal food. Maintenance of grounds must include:				
(1) Properly storing equipment, removing litter and waste, and cutting weeds or grass within the immediate vicinity of the plant that may constitute an attractant, breeding place, or harborage for pests				
(2) Maintaining driveways, yards, and parking areas so that they do not constitute a source of contamination in areas where animal food is exposed;				
(3) Adequately draining areas that may contribute to contamination of animal food; and

they may contaminate animal food and in a manner that minimizes the potential for contaminating animal food				
(4) Provide adequate lighting in hand-washing areas, toilet rooms, areas where animal food is received, manufactured, processed, packed, or held, and areas where equipment or utensils are cleaned; and				
(5) Provide shatter-resistant light bulbs, fixtures, and skylights, or other glass items suspended over exposed animal food in any step of preparation, to protect against the contamination of animal food in case of glass breakage.				
(c) The plant must protect animal food stored outdoors in bulk from contamination by any effective means, including: (1) Using protective coverings where necessary and appropriate;				
(2) Controlling areas over and around the bulk animal food to eliminate harborage for pests;				
(3) Checking on a regular basis for pests, pest infestation, and product condition related to safety of the animal food.

§507.19 Sanitation.				
(a) Buildings, structures, fixtures, and other physical facilities of the plant must be kept clean and in good repair to prevent animal food from becoming adulterated.				
(b) Animal food-contact and non-contact surfaces of utensils and equipment must be cleaned and maintained and utensils and equipment stored as necessary to protect against the contamination of animal food, animal food-contact surfaces, or animal food-packaging materials. When necessary, equipment must be disassembled for thorough cleaning.				
(1) When animal food-contact surfaces used for manufacturing, processing, packing, or holding animal food are wet-cleaned, the surfaces must, when necessary, be thoroughly dried before subsequent use; and

(2) In wet processing of animal food, when cleaning and sanitizing are necessary to protect against the introduction of undesirable microorganisms into animal food, all animal food-contact surfaces must be cleaned and sanitized before use and after any interruption during which the animal food-contact surfaces may have become contaminated.				
(c) Cleaning compounds and sanitizing agents must be safe and adequate under the conditions of use.				
(d) The following applies to toxic materials: (1) Only the following toxic materials may be used or stored in the plant area where animal food is manufactured, processed, or exposed:				
(i) Those required to maintain clean and sanitary conditions				
(ii) Those necessary for use in laboratory testing procedures;				
(iii) Those necessary for plant and equipment maintenance and operation; and

Please note that, at this point in time, the FDA’s Food Safety Systems Recognition program is not available for animal food.

PART 507—CURRENT GOOD MANUFACTURING PRACTICE, HAZARD ANALYSIS, AND RISK-BASED PREVENTIVE CONTROLS FOR FOOD FOR ANIMALS (PCAF Rule)	Audit Standard Language	Analysis of Alignment of Audit Standard	Description of Gaps and Actions to Align	Additional Comments
(a)(1) Except as provided by paragraphs (a)(2) and (3) of this section, the receiving facility must establish and implement a risk-based supply-chain program for those raw materials and other ingredients for which the receiving facility has identified a hazard requiring a supply-chain-applied control.				
(2) A receiving facility that is an importer, is in compliance with the foreign supplier verification requirements under part 1, subpart L of this chapter, and has documentation of verification activities conducted under §1.506(e) of this chapter (which provides assurance that the hazards requiring a supply-chain-applied control for the raw material or other ingredient have been significantly minimized or prevented) need not conduct supplier verification activities for that raw material or other ingredient.				
(3) The requirements in this subpart do not apply to animal food that is supplied for research or evaluation use, provided that such animal food: (i) Is not intended for retail sale and is not sold or distributed to the public;

supply-chain-applied control is applied by an entity other than the receiving facility’s supplier.				
Subpart F—Requirements Applying to Records That Must Be Established and Maintained				
§507.200 Records subject to the requirements of this subpart.				
(a) Except as provided by paragraphs (d) and (e) of this section, all records required by this part are subject to all requirements of this subpart.				
(b) Records obtained by FDA in accordance with this part are subject to the disclosure requirements under part 20 of this chapter.				
(c) All records required by this part must be made promptly available to a duly authorized representative of the Secretary of Health and Human Services for official review and copying upon oral or written request.				
(d) The requirements of §507.206 apply only to the written food safety plan.				
(e) The requirements of §507.202(a)(2), (4), and (5) and (b) do not apply to the

records required by §507.7.				
§507.202 General requirements applying to records.				
(a) Records must: (1) Be kept as original records, true copies (such as photocopies, pictures, scanned copies, microfilm, microfiche, or other accurate reproductions of the original records), or electronic records;				
(2) Contain the actual values and observations obtained during monitoring and as appropriate, during verification activities;				
(3) Be accurate, indelible, and legible;				
(4) Be created concurrently with performance of the activity documented; and				
(5) Be as detailed as necessary to provide history of work performed.				
(b) All records must include: (1) Information adequate to identify the plant or facility (e.g., the name, and when necessary, the location of the plant or facility);				
(2) The date and, when appropriate, the time of the activity documented;

(3) The signature or initials of the person performing the activity; and				
(4) Where appropriate, the identity of the product and the lot code, if any.				
(c) Records that are established or maintained to satisfy the requirements of this part and that meet the definition of electronic records in §11.3(b)(6) of this chapter are exempt from the requirements of part 11 of this chapter. Records that satisfy the requirements of this part, but that also are required under other applicable statutory provisions or regulations, remain subject to part 11 of this chapter.				
§507.206 Additional requirements applying to the food safety plan.				
The owner, operator, or agent in charge of the facility must sign and date the food safety plan upon initial completion any modification.				
§507.208 Requirements for record retention.				
(a)(1) All records required by this part must be retained at the plant or facility for at least 2 years after the date they were prepared.				
(2) Records that a facility relies on during the 3-year period preceding the applicable calendar year to support its status as a qualified facility must be

retained at the facility as long as necessary to support the status of a facility as a qualified facility during the applicable calendar year.				
(b) Records that relate to the general adequacy of the equipment or processes being used by a facility, including the results of scientific studies and evaluations, must be retained by the facility for at least 2 years after their use is discontinued (e.g., because the facility has updated the written food safety plan (§507.31) or records that document validation of the written food safety plan (§507.45(b))).				
(c) Except for the food safety plan, offsite storage of records is permitted if such records can be retrieved and provided onsite within 24 hours of request for official review. The food safety plan must remain onsite. Electronic records are considered to be onsite if they are accessible from an onsite location.				
(d) If the plant or facility is closed for a prolonged period, the food safety plan may be transferred to some other reasonably accessible location but must be returned to the plant or facility within 24 hours for official review upon request.
