Tapentadol	Nucynta , Nucynta ER
Sodium Oxybate	Xyrem oral solution

FDA believes that the known risk of harm, including death, to humans from accidental exposure to the medicines listed above, especially potent opioid medicines, far outweighs any potential risk to humans or the environment from flushing these medicines. FDA will continue to conduct risk assessments as a part of our larger activities related to the safe use of medicines.

For disposal information, specific to another medication you are taking please [visit Drugs@FDA](#). Once there type in the medication name and click on search. Then click on the label section for that specific medication. Select the most recent label and search for the term “disposal.”
