# HERE ARE THE REAL FACTS ABOUT CANNABIS:

**THE HIGHLY POTENT MARIJUANA OF TODAY IS DIFFERENT FROM THE 1990s.**  
Marijuana flower averages more than 20% THC in states that have commercialized it, and processed cannabis, dab/wax/shatter, up to 90% THC.  
Usage by kids and young adults has markedly increased with retail marijuana sales. Marijuana is the number one substance found in Colorado suicides, ages 10-19 years old.

**BIOHAZARD**  
Marijuana products have been found to be contaminated with fungus, heavy metals, pesticides and chemicals.

**WARNING**  
Marijuana can cause mental illness and is associated with onset of schizophrenia. Marijuana is implicated in psychosis, suicide and homicide.

**WARNING**  
Marijuana harms the unborn child, and concentrates in breast milk.

**WARNING**  
Marijuana can cause cyclic vomiting.

**WARNING**  
Marijuana can trigger violence in those with PTSD or make PTSD worse.

**WARNING**  
Marijuana is linked to increased driving fatalities.

**WARNING**
