Cancer Support Community

OUR MISSION:

To ensure that all people impacted by cancer are empowered by knowledge, strengthened by action, and sustained by community.

About Us

- More than 500,000 visits by patients and loved ones to our 175 locations each year
- Our Cancer Support Helpline® (CSH) responds to nearly 20,000 support and resource navigation inquiries (calls, emails and chats) each year
- 3.2 million unique visits to our websites annually
- Nearly 40,000 users of MyLifeLine digital community platform

Policy & Advocacy

- Focused on three major pillars: Quality, Access, and Research
- Grassroots Network has nearly 5,000 patients and supporters

Research & Training

- More than 13,000 participants in the *Cancer Experience Registry*
- More than 1 million data points on these patients

Our National Reach

We operate at 175 locations, including affiliates, hospitals, and other health-care partners

A New Opportunity to Help Cancer Patients and Their Caregivers

- Web-based communication platform that brings more than 30,000 patients and caregivers into CSC's network
 - Connects cancer patients and caregivers with their family and friends for emotional and social support
 - Provides free, cancer-specific resources and services to empower patients on their journey
 - Eases the burden of cancer through support, inspiration and encouragement so patients and caregivers can focus on what is most important – healing

Cancer Support Helpline®

- Personalized, toll-free phone support services
- Staffed by: Licensed Mental Health Professionals, Nurses, & Resource Specialists
- Subject matter experts in: financial counseling, genetics/genomics, pediatric cancer, clinical trial navigation
- Telephone supervision/case consultation: (twice per month)
- Open Monday – Friday 9:00 am – 9:00 pm ET
- Bilingual (Spanish)
- Medical Translation Service for 200 languages
- Live chat

Research and Training Institute

Experts in the Cancer Patient Experience

- The first and only *Institute* in the U.S. dedicated to psychosocial, behavioral, and survivorship research and training
- Comprised of a multidisciplinary team of clinical and research professionals including PhD level clinical psychologists, social scientists, epidemiologists, statisticians, and anthropologists
