Office of Food Additive Safety (OFAS)

## **OFAS Submission Quick Start Guide**

## INTRODUCTION

This Guide will briefly introduce you to the CFSAN Online Submission Module (COSM) and illustrate how to assemble an OFAS Regulatory submission. COSM presents you with questions in a simple and consistent format to assist you in assembling OFAS submissions with ease.

**Note:** Prior to using this Guide, you should familiarize yourself with the **[COSM Registration Help Guide](#)**.

This Guide gives information relevant to the following OFAS submissions:

1. **Food Contact Notification (FCN) (Form 3480)**
2. **Food Master File (FMF) for a Food Contact Substance (Form 3480)**
3. **Pre-Notification Consultation (PNC) (Form 3480)**
4. **Color Additive Petition (CAP) (Form 3503)**
5. **Color Master File (CMF) (Form 3503)**
6. **Food Additive Petition (FAP) (Form 3503)**
7. **FMF for Food Additives (FMF) (Form 3503)**
8. **Biotechnology Final Consultation (BNF) (Form 3665)**
9. **New Protein Consultation (NPC) (Form 3666)**
10. **Generally Recognized as Safe Notice (GRAS) (Form 3667)**

## Step 1. Create an Account

Registration continued on next page...

1 of

The first time you use the COSM you must create an account with a username, password and three security questions. In addition, the COSM registration process will require your name, address and company information. Optionally, you will be allowed to enter a list of contacts, agent or attorney information, which can be used for future submissions. These contacts will go into your personal contact list. The contact list will be available whenever you assemble a new submission. Instead of manually entering contact information for each new submission, you will have the option of selecting a contact from the list. All contact information will then be prepopulated from the selected contact. The contact list is available to you through a “Manage Contacts” link and can be updated or amended at any time after the registration process. Finally, you will be required to select the type(s) of submissions you will typically be sending to the FDA. These can also be updated or amended after the registration process.

## Step 1. Click the Manage Contacts Menu Tab

The “Manage Contacts” feature allows you to add and store one or more contacts. Some submissions require multiple contacts and if you have a list of contacts that you have previously entered, this feature will provide quick access to them when you are assembling your submission. Click the “Profile” menu button on the top right of the screen and then click “Manage Contacts”.

When the Manage Contacts screen appears, click the blue “Add New Contact” button. When you click the button, a new address form opens, and you can enter the new contact information.

The submission types were selected during the Registration process and are represented by “Menu Cards”. *The following example illustrates the Biotechnology Final Consultation (Form 3665) summary page and available sections.*

The screenshot shows the 'Home Page' of the CFSAN Online Submission system. At the top, there is a navigation bar with the FDA logo, 'CFSAN Online Submission', and a 'Home' button highlighted with a red box. Other navigation options include 'About', 'Manage Submissions', 'Profile', and 'Logout'. Below the navigation bar, the page is titled 'Selected Submission Types' and includes the instruction: 'Please click on one of the Menu Cards below to create a new submission'. There are six menu cards arranged in a 2x3 grid. Each card features an image, a title, a subtitle, and a blue 'Start' button. The first card, 'Biotechnology Notification File', is highlighted with a red box around its title and button. A red line connects the 'Home Page Button' label to the 'Home' button, and another red line connects the '(BNF Form 3665) Biotechnology Final Consultation Submission Button' label to the 'Start BNF Application' button.

Upon selecting the submission type from the Home page, the system will open the Summary page for the selected submission. Each OFAS submission type has different sections.

**You may go to any section in any order you choose.**

### Tracking Number

The COSM will create a unique tracking number for each submission.

### Update Button

You may update data into sections of a submission, “leave” the submission in a draft status and return to complete the submission later.

### Completion Icon

Each section on the Summary page will display a check mark upon its completion.

### Summary Sections Restrictions

#### Mandatory Fields

All Mandatory fields/questions are designated by an asterisk symbol (\*). Mandatory fields must be completed before moving on to the next screen. If any of the required fields are not completed, you will be prompted to enter the missing information before proceeding to the next section.

You are prevented from entering a future date when completing a date field.

## Step 3. Attach Documents

Supporting documentation can be attached as questions are being answered. All documents are placed in their relevant folders as they are being uploaded. Additional documents can be attached as part of the completion process. At that time, you can upload documents not explicitly asked for within the submission. Using that option also allows you to place documents in folders that you specify.

8. **Specifications \***  
Attach a listing of physical and chemical specifications for the FCS such as density, melting point, maximum impurity levels, and solubility in food simulants. For new polymers, provide glass transition temperatures, intrinsic or relative viscosity, melt flow indices, morphology and crystallinity. Provide minimum or maximum specification limits or a range, as appropriate. In addition, include specification test results for at least three production batches of the FCS and the analytical methods for establishing compliance with specifications.
