Sorry to bother you with one more story. Can you confirm this on background (ie as an administration official, your name wouldn't be anywhere near it):

(NYT) The F.D.A. proposed stricter guidelines for emergency approval of a coronavirus vaccine, but the White House chief of staff objected to provisions that would push approval past Election Day.

I asked Jeff if he has been working with NIOSH as they update and his response: Yes, we have been working with NIOSH. Some of the KN95s that China authorized under their comparable system are failing some of the NIOSH testing which may be due to poor quality controls in their manufacturing. (b)(5)

FDA issued an EUA for these specific drugs: [redacted] (b)(3), (b)(5)

(b)(3), (b)(5)

During the evaluation of the criteria under which to issue an EUA, it was determined, based on the scientific evidence available, that it is reasonable to believe that the specific drugs may be effective in treating COVID-19, and that, given there are no adequate, approved, or available alternative treatments, the known and potential benefits to treat this serious or life-threatening virus outweigh the known and potential risks when used under the conditions described in the EUA. Those conditions include use when a clinical trial is not available or feasible, as well as reporting requirements for administration under emergency use authorization. The EUA also requires that fact sheets that provide important information about using these drugs in treating COVID-19 be made available to health care providers and patients, including the known risks and drug interactions.

Paul said the call tomorrow is an Introduction to VADM Abel who will be helping us coordinate internal COVID response as we transition activities back to HHS. We are introducing him to all key COVID related operating divisions. Doing the same with NIH, CDC, ASPR, CMS. He will not be working on OWS. Sounds like a project manager to coordinate HHS wide efforts on COVID.

Memorandum

To: Dr. Hahn
From: OEA Stakeholder Team
Re: PhRMA CEO call re COVID-19 Vaccines on Friday, May 29th, 2020

Below please find your talking points and the agenda items PhRMA would like to discuss during the call tomorrow. Also, BIO may have a few attendees as well, but we are still waiting on confirmation from them.

Joining you for this call from FDA:
Dr. Peter Marks, Director, CBER

(b)(5)

Agenda

Welcome/Opening Remarks	Commissioner Stephen Hahn Dr. Peter Marks
Summary Industry Updates	Vas Narasimhan/Novartis/PhRMA
Topics for Discussion:	Vas Narasimhan/Novartis (moderator)

1. Globalization and harmonization of clinical development and regulatory review
2. Risk-based regulatory guidance and expectations for GMP issues associated with vaccine manufacturing

3. Criteria for and timing of inclusion of pediatric subjects in coronavirus vaccine clinical studies

Opening Remarks

Stephen Hahn, FDA Commissioner

(b)(5)

I'm sorry to bother you but I'm going to need your help with this

Peter

I received the following from Congressman McCaul this evening. I don't at all want to prejudge the outcome. I think they just need clarity. Could you reach out to the company? I'll also arrange a call for the 2 of us with the congressman.
Thx

scd.2020.0080.pdf

Dr. Hahn, Michael McCaul here, please see the published periodical. I would like to discuss this with you as soon as possible. We need to move this it's been two weeks and people are dying. We know this is safe and works! Call me at (b)(6) thanks!

(b)(4)

(b)(4) I was told this is a "new FDA" and not the old bureaucratic one. I am concerned by the lack of urgency demonstrated by your staff given the tremendous loss of life during this pandemic. (b)(4)

(b)(4)

(b)(4) I have been very patient and worked on this matter as appropriate under your guidance but If I do not hear from you or your staff in the near future I will have no other choice but to raise this issue to a higher level. The WH is aware of (b)(4)

(b)(4) Thank you for your attention to this matter and I look forward to hearing from you in the near future.

Sincerely,

Michael McCaul
