03/13/2023

Experience

Attending Faculty Physician, Section of Pulmonary, Critical Care & Respiratory Services
MedStar Washington Hospital Center
Washington, District of Columbia
August 2010 – present

Director of Bronchoscopy & Interventional Pulmonary: August 2010-present
Specializing in interventional procedures for the diagnosis and management of malignancies involving the thorax as well as other thoracic complications, including:

- endobronchial ultrasound, radial and linear (for diagnosing and staging thoracic malignancy and for evaluation of mediastinal and hilar adenopathy)
- thoracentesis and long-term drainage catheter placement (for management of recurrent malignant pleural effusions)
- stent placement and debulking of endobronchial lesions
- endobronchial valve placement for management of pneumothorax with persistent air leaks

Associate Fellowship Program Director, Pulmonary Critical Care and Emergency Medicine Critical Care: August 2017-present

Fellowship Program Director, Pulmonary Critical Care and Emergency Medicine Critical Care: July 2015-August 2017

Attending Physician, Associate Staff Member, Department of Medicine
Medstar Franklin Square Medical Center
Baltimore, Maryland
February 2022 – present

Attending Physician, Medical Intensive Care Unit / Intermediate Medical Care Unit
Triage
MedStar Washington Hospital Center (critical care triage)
Washington, District of Columbia
July 2005 – June 2007

Attending of Medicine at Tenwek Hospital (short-term medical missions)
Bomet, Kenya
April – May 2007

03/13/2023

Jessica S. Wang Memoli, MD
110 Irving Street NW, 2A-70
Washington, DC 20010
202-877-7856(W) 202-291-0386(FAX)

03/13/2023

Post-graduate Training

Pulmonary and Critical Care Medicine fellowship, Medical University of South Carolina
Charleston, South Carolina
July 2007 – June 2010

Internal Medicine residency, Georgetown University at MedStar Washington Hospital
Center
Washington, District of Columbia
June 2002 – June 2005

Certifications/Licensing

American Board of Internal Medicine
Internal Medicine, board certified, 2005-2015
Pulmonary Diseases, board certified, 2009-2029
Critical Care, board certified, 2010-2020
District Of Columbia Board of Medicine – licensed, 2005-2008, 2010-present
Maryland Board of Physicians – licensed, 2022-present
State of South Carolina – licensed, 2007-2011
Basic and Advanced Cardiac Life Support – certified 2018

Education

Doctor of Medicine, University of Miami School of Medicine
Miami, Florida
August 1998 – May 2002

Bachelor of Science, University of Miami
Honors Program in Medicine
Coral Gables, Florida
Majors: English Literature and Biology
August 1995 – May 1999

Professional Organizations

American Association of Bronchology – member, 2008-present
American Thoracic Society – member, 2008-present
American College of Chest Physicians – member, 2007-present
American College of Physicians/American College of Internal Medicine – member,
1998-present
American Medical Association - member, 1998-present

Research continued

Current Research Protocols continued

Lazar JF, **Wang Memoli J.** "Evaluation of Robotic Navigation Bronchoscopy: a case series." Case series of patients who have undergone robotic navigation bronchoscopy for the diagnosis and/or management of peripheral lung nodules. In process.

Funded Research Protocols

Wang Memoli JS. "Spiration Endobronchial Valves for Continued Use." Protocol of the Olympus Spiration Endobronchial Valves currently being used under Humanitarian Device Exemption for persistent air leaks. Study closed.

Tanner N, Yarmus L, Maldonado F, **Wang Memoli JS**, Chen A, Taylor K, Silvestri GA. "Multicenter, prospective, randomized trial of bronchoscopy with ultrathin bronchoscope and radial endobronchial ultrasound (R-EBUS) with fluoroscopy versus standard fiberoptic bronchoscopy for biopsy of pulmonary lesions." Multi-center trial supported by grant from Olympus America, Inc. comparing traditional flexible bronchoscopy to ultrathin bronchoscopy with radial EBUS for peripheral lung nodules diagnosis. Completed.

"A Phase III Study Evaluating the Efficacy and Safety of Remimazolam (CNS 7056) Compared to Placebo and Midazolam in Patients Undergoing Bronchoscopy." Multi-center trial funded by Paion UK Limited comparing remimazolam to usual sedation during bronchoscopy. Closed.

"Valves Again Standard Treatment." Multi-center trial funded by Spiration, Inc. evaluating the use of Spiration one-way valves versus standard of care for treatment of persistent pneumothoraces. On hold.

"A Multicenter, Randomized Controlled Trial, Prospectively Evaluating the Clinical Utility of the Nodify XL2 Proteomic Classifier in Incidentally Discovered Low to Moderate Risk Lung Nodules." Multi-center trial funded by Biodesix, Inc. evaluating the use of serum marker Nodify XL2 integrated classifier in patients with newly diagnosed incidentally found lung nodules with <50% probability of lung cancer. Currently recruiting patients.
