ESAF Multi-Factor Authentication instructions

In accordance with security requirements mandating multifactor authentications for all external applications utilizing password login, the SSO team intends to introduce Multi-Factor Authentication (MFA) for the eSAF application via Oracle Access Manager (OAM). Following the implementation of MFA, eSAF users will undergo Second Factor Authentication through One Time Pins sent to their registered emails. Please see steps below

Steps to follow:

1. eSAF user enters the correct username and password.

3. The system will direct the user to the Second Factor Authentication screen where the user can enter the received PIN and click on 'Login' button.
