Instructions for Form FDA 3733 Shell Egg Producer Registration

NOTE: Form FDA 3733 is used to register a farm, to provide an update to an existing registration, or to notify FDA that you are ceasing operations. The owner or operator of the facility, or an individual authorized by the owner or operator of the facility, such as an agent in charge, must fill out, sign, and submit this form.

An individual (other than the owner or operator) who submits this form to FDA must, in section 7 of the form (certification statement), identify by name the individual who authorized submission of the registration. Form FDA 3733 must be signed and printed or typed with black or dark blue ink. If there is no information available for a specific block in a mandatory section, enter the words "Not Available," "N/A," or "None" in that block unless specified otherwise in these instructions. Do not make any entries or marks in the parts of the form designated "FDA USE ONLY." Some sections of the form contain a check box for making a selection. Check the box when making a selection. All sections on this form are mandatory unless described otherwise. Forms that are incomplete or illegible will not be processed and may considerably delay a requested action (such as issuance of a Shell Egg Producer Registration Number).
